REVIEW DEPOSITIONS ON TV

Now you can conveniently review video depositions and transcripts on a television using a standard DVD player. Reviewing depositions has never been so convenient when traveling, reviewing a case at home, or in any situation where a computer is unavailable.

REVIEW TRANSCRIPTS ON TV OR PC

Utilizing patent-pending technology, DepoView DVD is the only product that displays the full transcript in addition to video footage on a TV.

By referencing the electronic transcript, you can easily determine which sections of the video you want to review and jump directly to that page.

SUBTITLES

Using your DVD control, turn subtitles on or off when reviewing or presenting video.

DepoView DVD - Play Video

INCLUDES DEPOVIEW SOFTWARE FOR PC

Each DepoView DVD includes a complimentary license of DepoView software that you can download at your convenience. DepoView software allows you to view videos, create video clips, search transcripts, and much more!

COMPATIBLE WITH POPULAR SOFTWARE

Easily share video files between a DepoView DVD and other popular litigation support programs such as inData TrialDirector®, CT Summation®, LiveNote® and more. Each DepoView DVD contains the following load files:

- .AMI (AMICUS transcript)
- .CMS (inData TrialDirector standard load file)
- .OLL (inData TrialDirector exhibits load file)
- .MDB (Sanction load file)
- .SBF (CT Summation transcript and exhibit load file)
- .DII (CT Summation load file)
- .PTF/.VID (LiveNote load file)
- .EXH (LiveNote exhibits load file)
- .PTS (Timaro Post-Production Timestamp file)
- .TXT (ASCII transcript)

GET IT NOW!

Ask your videographer or court reporter to deliver your next video deposition on a DepoView DVD. It's that simple.
