

### CD and DVD DUPLICATION or REPLICATION

The Copy Shop's CD or DVD duplication and replication services provide the highest quality and most competitively priced products possible. We can provide a complete array of packaged products from standard black and white printed labels to full color disc imprinted labels. Your logo can be included at no additional cost if artwork is provided. Packaging options include paper sleeves, C-shell plastic cases, jewel cases, or DVD cases. We can help you with customized packaging to meet your exact requirements.

#### Duplication vs. Replication:

Duplication uses off the shelf DVD-Rs or CD-Rs. These discs are "burned" with the data or video in a duplicator machine and a full color label applied and packaged to your specifications. Duplication is usually faster completion time (24-48 hours) and typically for smaller quantities.

Replication services are for larger bulk quantities (500+) with standard production time of 2-3 weeks. The discs are pressed through a glass mastering process with full color impression on-disc printing and retail, professional packaging available. We outsource replication to our wholesale partner company to fulfill large bulk orders.

The quantity, combined with cost and timeframe required will usually determine whether you should choose Duplication or Replication.

CD and DVD PRICING:	COMPACT disc		DVD	
	CD Duplication (24-48 hrs)	CD Replication (2-3 weeks)	DVD Duplication (24-48 hrs)	DVD Replication (2-3 weeks)
